

Spring 2 Term Year 1

English

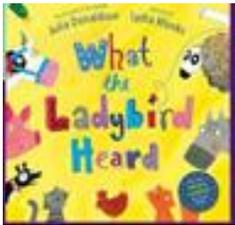

We are reading...

We will be reading a range of books linked to our topic Moo, Baa, Oink.

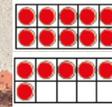

The children will learn how to write a newspaper entry, narrative and instructions.

As writers we will learn to include the conjunctions 'and' and 'because' in our writing and continue to develop our writing skills by including non negotiables (capital letters, finger spaces and full stops) in all our written work.

Maths

As mathematicians we will continue to build on previous learning. The children will develop their skills by engaging in practical activities to learn about place value within 50 before moving on to length and height, mass and volume.

Please remember....

To support your child at home, please read with them (or to them) as often as possible. As little as 10 minutes per day can improve fluency.

Numbots is a fantastic tool to support children's mathematical understanding of number.

Phonics homework is posted on Séesaw weekly.

Please pack a change of clothes (and a bag for wet things) if your child enjoys puddles and water play in POP.

Science

As scientists we will be learning about where our food comes from, seasonal changes and continue our learning on how plants grow.

We will undertake practical activities to develop our skills in working scientifically.

Geography

In geography, we will explore farms and farming in Chichester, comparing life on a farm to life in a town. We will visit the Weald and Downland Museum to deepen our understanding of rural life and develop our geographical skills by learning to use a map and symbols.

DT and Art

Art

As artists, we will learn about mixing colours, using colour wheels and practising skills such as tinting and shading. Children experiment with warm and cold colours before creating their own individual piece or art with powder paint based on Kandinsky.

DT

In DT we will be learning to identify fruits and vegetables, how to grow them and prepare ingredients to make a healthy smoothie.

Music

Children will listen actively to music inspired by the sea. They will focus on three contrasting themes in 'Dawn' from Benjamin Britten's Sea interludes, bringing the piece to life by creating a moving, musical picture.

The children will create musical conversations. Pupils will invent and compose short pieces based around question-and-answer interactions/dialogue. They will also learn to take turns playing, lead and follow, read a 'score' and create their own simple graphic scores.

PSHCE

In our **Healthy Me** unit, we will be learning about;

- Being healthy
- Healthy choices
- Clean and healthy
- Medicine safety
- Road safety
- Healthy happy me.

Computing

Digital Writing

In computing, we will be learning how to use various functions on a computer keyboard to write, including adding and removing text, exploring keys and learning about the toolbar.

PE

In our outdoor PE lessons, we will be developing ball skills by practising feeding a ball over a net, consider body position behind the ball and sending the ball from different positions.

During indoor PE Dance lessons, we will learn to march in time to music and perform simple sequences.
