

Spring Term One - Year 4

Beautiful Biomes

English

In English, we will start with some descriptive writing based on the short film *The Black Hat*. We will create our own creature and describe how he appeared out the hat.

We are reading...

Maths

In Maths, we will be brushing up on our measurement skills, particularly length and perimeter.

MFL

We learn to communicate in French by developing their understanding of numbers, days of the week and months of the year.

Science

We explore how living things can be classified, learn how to use classification keys, and understand how changes to habitats can affect living things and the importance of protecting the natural environment.

Geography

Geography

We learn about biomes around the world, with a focus on the Amazon Rainforest and how its climate, plants and animals are adapted to their environment.

Music

RE

We continue to learn about Buddhism, exploring key beliefs, stories and practices.

Music

We continue to practise our ukulele with Mrs Gray learning new notes weekly.

PSHCE

Through the topic of hopes and dreams, pupils learn how to set realistic goals, manage disappointment, and develop resilience when things do not

Computing

We are podcasters learning how to record using voice memos.

PE

Pupils take part in football and dance, developing teamwork, agility and control, as well as creating and performing movement sequences.
